

## Ride Guide Lower Spring Creek Trail

**Description:** This ride is a great 8-mile (one way) singletrack ride in Spring Creek Canyon. To get to the start, measure from the intersection of Highway 90 & Dave Wood Road. After going 5.6 miles south on Dave Wood Rd., there will be a dirt parking lot on the right. The BLM has installed (tiny) signs identifying the south end of Spring Creek trail here. Follow the steep singletrack down into the canyon. Most mortals walk this section. Ride the gradually ascending singletrack trail 8 miles; turn around and bomb back down the canyon. This route may also be done as a loop.

Park as stated above, and ride up Dave Wood Rd. At the Forest Service boundary, take a right on the Spring Creek Rim Road. After about a mile, take a right on the Spring Creek ATV-width trail. This 2 track follows the canyon rim, and then abruptly descends to the canyon floor. Take a right on the single track, ride 8 miles on one of the area's finest trails, then push your bike out of the canyon to the parking lot.

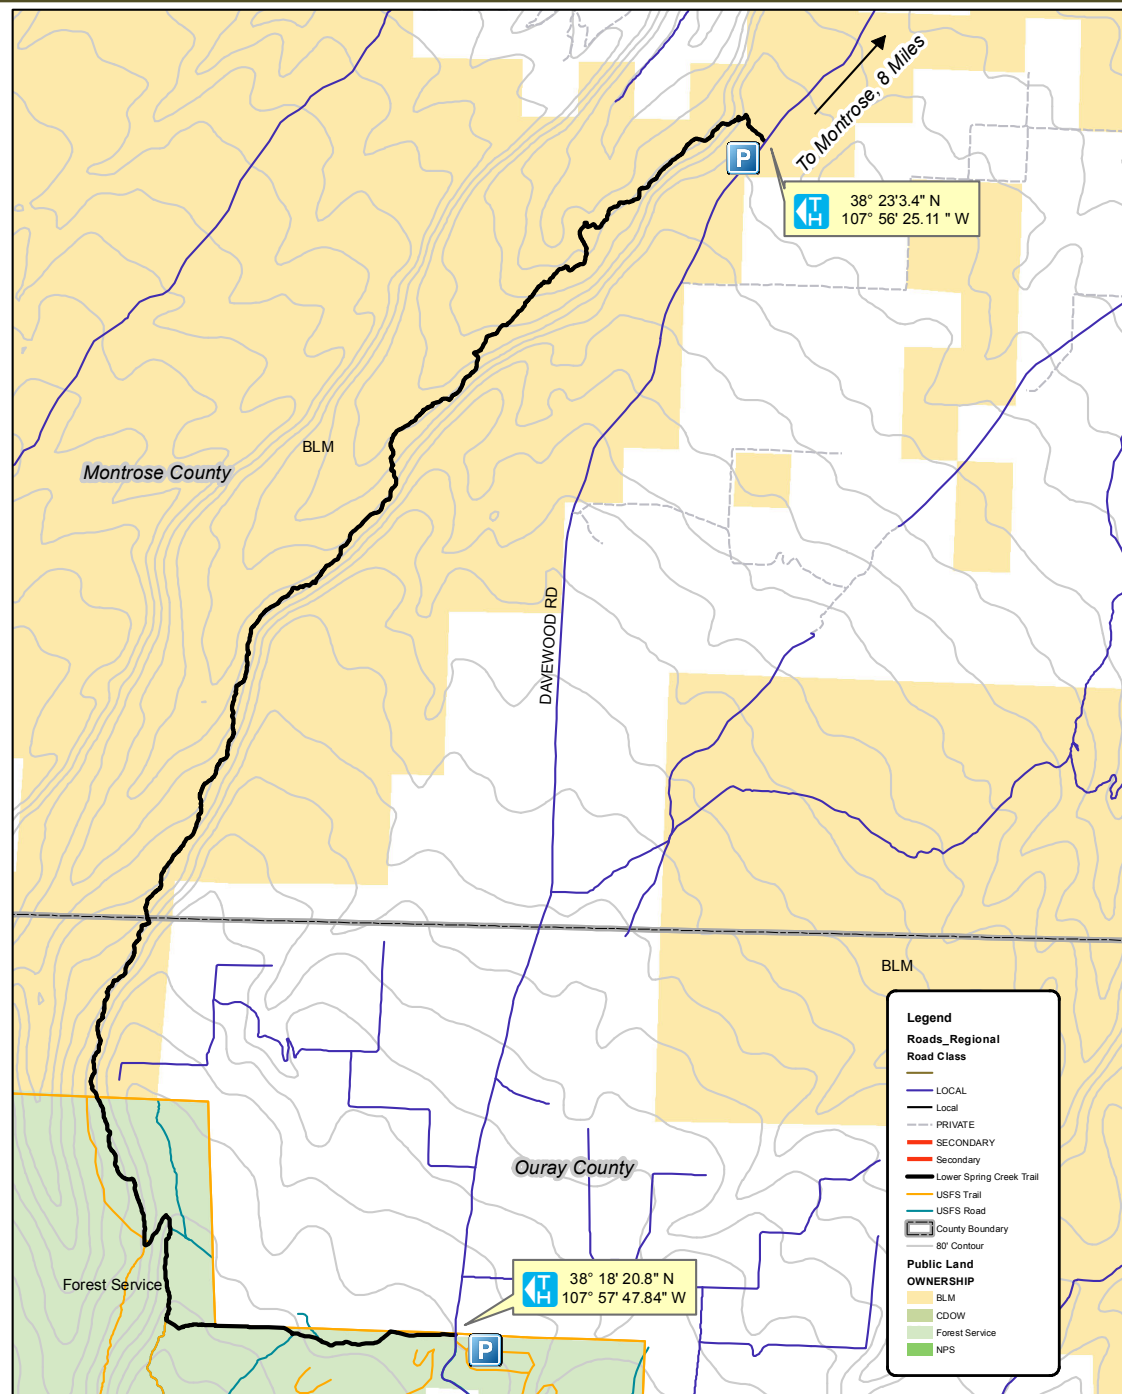

**Distance:** 16 miles

**Rating:** Advanced

**Time:** 3-4 hours

**Elevation:** 6500-7800 feet

**Season:** Late Spring/Summer/Fall
